

2010 Day Camp

Parking Info

- There is not much parking available at camp -- please try to carpool
- Most of the available parking is along Five Lakes Road (the asphalt road that runs by camp)
- **Parking is allowed in YELLOW areas ONLY**
- **NO PARKING in the red areas (or in camp)**
- **PLEASE BE CAREFUL AND PAY ATTENTION**
There are over 200 Cub Scouts, 75 Gatorbites and 100 volunteers at camp each day
Most of them are not watching for cars
- See below the map for more detailed parking information

- **ONLY** park in areas marked in yellow on the above map
- **DO NOT** park in the field in front of Headquarters
 - Parking is allowed in this field **ONLY** on Monday morning and **ONLY** for parents who are checking in scouts and then leaving.
 - Volunteers who are staying for the day should park in a yellow area and then come to Headquarters to check in.

- **ONLY** park on the "tree side" of "Car Line Exit Road" -- **DO NOT** park on the field side of this road
- **DO NOT** park on either side of "Car Line Entrance Road" (by Gatorbites and the flagpoles)
- **DO NOT** park by the flagpoles, Headquarters or Den Row
- **DO NOT** park in camp (past the red areas marked on the map)

- **DO NOT** park behind the bathhouse -- there is a septic tank there and you may break it
- **DO NOT** park on or block the gravel road by Mike's House -- Mike or the staff may need to use it
- **DO NOT** block the grass driveway in front of Mike's House -- Mike likes to be able to leave for work

- **DO NOT** park past the barracades on "Car Line Exit Road" -- there is a water main there that supplies water to the entire camp.
If someone parks on the waterline and breaks it (this has happened in the past), we cannot have camp -- no water = no camp.

- **Waterfront Volunteers** can park in the back by waterfront **IF**:
 - They arrive at camp **BEFORE 7:45 AM**
 - They do not leave camp until **AFTER 4:00 PM**
